

Femoral Vein Cannulation

Consider I/O if rapid infusion and medical therapy are needed

Items Needed:
IV Needle/Catheter
Syringe 10cc
Antiseptic
IV fluid
IV Start Kit

Document:
• Procedure
• Site Used
• Catheter Size
• IV Fluid

1 Select Site: If an imaginary line was drawn between the anterior, superior iliac spine and the symphysis pubis, the femoral artery runs directly across the mid-point. The femoral vein lies medial to this point.

2 Nick skin with needle prior to insertion. Be certain air is not introduced into the vein.

3 If the attempt is not successful consider making a second attempt slightly inferior to your first site.
Remember NAVEL - Nerve, Artery, Vein, Empty Space and Ligament.

FEMORAL VEIN CANNULATION
